## HOPKINS WILL ENTER TEAM OF EIGHTEEN

Baltimore Collegians Hope to Capture Honors in Georgetown Meet Saturday.

Another big batch of entries, eighteen in all, from Johns Hopkins, came in yesterday and swelled the lists for the Georgetown meet.

After winning their own meet, the Baltimore collegians have high hopes of annexing the Spalding point trophy on Saturday night, and if numbers alone make any difference, they will come very near attaining their end.

Besides these and other attractions from other colleges, a stellar event will be staged in the relay race between the Columbia A. C. and Fifth Regiment teams of Baltimore. The last encounter between these two at the Johns Hopkins games Saturday night proved a thriller, the last named breaking the tape a scant three inches in the lead, so this contest should prove even better.

Followers of prep school athletics will probably be pleased at the appearance of Jerney, the fastest sprinter in the Maryland circuit, who will run on the Tom School relay in the mile race between the school and the fast quartet of Episcopal High School. Special importance may be attached to this race inasmuch as it will affect the ratings for the coming season in the Penn. relay carnivals in the spring.

Mercurious just noted out the Alexandrians in the relay race, Saturday night. Should Tom succeed in beating the Episcopal boys in the Georgetown meet the preparatory championship will be all probability left between these two teams. Besides the relay team the Port Deposit school will make a determined bid for the cup that the management of the meet has reserved for the winner of the most points in individual events open to high schools and preparatory institutions.

With the entries continuing to pour in the management of the meet has decided to keep the lists of entries open until Tuesday when the lists will be closed. However, the sooner the teams are entered the more certain will be their chance of becoming properly matched.
